

The 18th Cadbury Squash Tournament took place at Riverside Gloucester early in March. Generously sponsored by Anne Cadbury, the tournament excludes the top five County boys and girls in each age group, so for many of the younger children this is their first tournament outside their own club, and this year for the first time we had an under 7 event. With a large entry of over 80 children in 10 different categories every child played at least three matches. You could see the younger children grow in confidence with each match giving them plenty of experience and many close matches. Many of the Gloucestershire players who started at this event have gone on to be nationally ranked, some have played for England, Ireland or Wales, a handful went onto become National Champions and one a European champion. Results as follows:
